

PWT COMPANY PROFILE

HISTORY

PWT was established in 1989, as a private Company, that developed its own market in the onshore pipeline automatic welding, offering one of the first automatic welding system and range of equipment and components for pipeline construction.

During the 90's PWT team created and developed the CWS becoming a key company in the diffusion of automatic welding among the European pipeline contractors.

Today

In 2011 PWT became part of ITW " Illinois Tools Works" :

Illinois Tool Works Inc. (NYSE:ITW)

100+ Years of service to industry
840+ Business units
60,000+ Employees
57+ Country Operations
60+ Operating Segments
\$15B Expected sales in 2015

PWT is part of one of the most important multinational companies owning several primary brands of welding sector, like **Miller** and **Hobart**, with the aim of proposing a full choice of welding solutions available for the customers worldwide.

The new ITW management has invested resources in PWT and the old CWS system, strong suit of the past, has been developed across the years and empowered for improved reliability, better performance more flexibility and lower maintenance at site that nowadays is very close to double torch systems but without any of their drawbacks.

The "new" **PWT** thanks to a global research team in Europe and United States can propose to the Onshore pipeline market a smart welding equipment based on three mainstays giving added value to the site operations: **easy, effective and flexible**.

Our global network shall deliver and support simple and reliable solutions that are based on advanced technologies, unique multi-discipline knowledge, in-depth pipeline construction experience.

MISSION

The Client's satisfaction has always been the main objective of our personnel.

PWT's mission is to offer a full range of services and products to support pipeline contractors around the world.

Through this scope, PWT aims to:

- Create customers success in pipeline welding
- Ensure consistent weld integrity
- Support simple and reliable solutions based on advanced technologies
- Create and develop the company in the long run
- Contribute to the wellbeing and growth of our collaborators, partners and employees.

In numbers:

- 25.000 Km of Pipeline around the world
- More than 370 welding system sold
- 25 years on the market
- More than 150 projects worldwide

VISION

By responding to the lifecycle pipeline integrity requirements, we will be recognized as the global partner for providing innovative, efficient, scalable welding solutions to the pipeline industry, facilitating long-term customer success in the most challenging environments.

Our global network shall delivery and support simple and reliable solutions that are based on advanced technologies, unique multi-discipline knowledge, in-depth pipeline construction experience and will ensure consistent weld integrity.
